PROFESSIONAL SUMMARY

I am a highly skilled and results-oriented Full-stack Web Developer with over 7 years of experience in designing, developing, and deploying scalable web applications. Proficient in PHP (Laravel), JavaScript (React, Node.js), and MySQL. Successfully delivered custom solutions that have served over 20,000+ users across diverse platforms. Passionate about building robust, secure, and responsive user-focused web solutions, with a growing interest in cloud-native architectures and DevOps practices.

WORK EXPERIENCE

Web Developer | Arnson Innovate, Nkoranza, Bono East, Ghana

March 2021 – Present

- Collaborated extensively with clients to gather and analyze website and web application requirements, ensuring delivery of tailored digital solutions that precisely met their business objectives.
- Led the end-to-end development of web applications utilizing Laravel, Tailwind CSS, and JavaScript, resulting in a 30% improvement in website functionality and UI design.
- Designed and launched 12+ intuitive and responsive WordPress websites using Elementor and Gutenberg, ensuring seamless user experiences.
- Developed and maintained robust backend systems with Vue.js, PHP, Laravel, MySQL, and Postman, ensuring seamless API integration and efficient data management.
- Utilized Git and GitHub for enhanced project collaboration, meticulous change tracking, and maintenance of code integrity across multiple development phases.

Web Developer | Emerging English Coaching, Akosombo, Ghana

May 2022 – December 2025

- Developed and maintained dynamic websites and e-learning tools using JavaScript, WordPress, and WooCommerce, directly contributing to the company's recognition as the top English learning platform in West Africa (2022) and Africa (2023).
- Optimized website performance through strategic SEO best practices, achieving a 40% increase in organic traffic and significantly improving search engine rankings.
- Diagnosed and resolved critical website issues, including front-end scripting errors, UI/UX concerns, and security vulnerabilities, leading to a 25% improvement in

system stability and enhanced user engagement.

- Built and deployed scalable web applications using HTML, CSS, and JavaScript, enriching the e-learning experience for a diverse student base across Europe and Asia.

Freelancer | Zelos Works

January 2021 – December 2022

- Successfully developed a comprehensive management system adopted and used by over 2,000 unique users.
- Engineered secure web applications for financial institutions, enabling real-time remittance tracking and automating complex reporting processes, significantly reducing manual effort.
- Built highly optimized landing pages using HTML and CSS, ensuring cross-browser compatibility and seamless integration across various devices.
- Provided critical security maintenance and patching, effectively preventing X potential vulnerabilities (e.g., "over 15 potential vulnerabilities") and ensuring continuous website viability post-launch.

SIDE PROJECTS

InkBulkSMS (Bulk SMS Platform) - *Online*

- Developed a full-stack web application using Laravel, PHP, MySQL, and Vue.js for efficient contact management and bulk SMS dispatch.
- Implemented a user-friendly dashboard with real-time message tracking and analytics, improving client engagement by 30%.

Hostel Management Web App (Property Management System) - *Internal System*

- Designed and built a web application using Bootstrap, PHP, and MySQL to streamline hostel operations, including room bookings and comprehensive tenant management.
- Integrated tracking features for room keys significantly enhance hostel security and operational efficiency.

Sikadaka (Online Service Marketplace) - *Proof of Concept (GitHub repository available)*

- Developed a financial management system designed to enable users to create communities, register members, and efficiently track payments.
- Utilized Laravel framework for robust backend development, engineered for scalability and reliability to support up to 1,000+ members.
- Engineered advanced payment tracking features, empowering administrators to

monitor transactions and ensure financial transparency.
